### TESTIMONIALS ABOUT BRENDA'S INDIVIDUAL COACHING

“Brenda is a highly experienced, highly motivating individual that was a pleasure to work with. Her business insights and perspective on the corporate world have been extremely helpful in guiding my own development.” *Executive Director, International Business Development*

“Although not a part of her official duties, Brenda was a coach or mentor to over forty XXX employees, and through word of mouth employees approached her for professional/career advice. Because of her rapport with employees, one of Brenda's last initiatives was that of facilitator for two tenure-based focus groups (i.e., employees with the organization less than five years and greater than five years). The focus groups were one strategy for accomplishing the development of our people goal of XXX Vision 2010. She designed the questions and format, which provided specific feedback for senior management, and assisted with the development of priorities for the Fiscal Year (FY) 2006 business planning cycle.” *Executive Officer*

“You are one of the greatest people I have met in my life. You are empowering others!! and especially women. I think you play an important role at X. You are making folks feel good and happy and best of all you supply them with tools (communication skills and more) to make their work situations better! You are awesome”. *An aspiring professional*
